

Rihanna Bumps Into Katy Perry

Pretty young things **Rihanna** and **Katy Perry** ran into each other at dinner in New York City on Friday evening, at swanky Philippe Chow restaurant. ←

Perry was in town for an [engagement](#) at the Hammerstein Ballroom, whereas Ri-Ri has just returned from London, where she popped up at the red carpet premiere for **Brad Pitt's** *Inglourious Basterds*.

Sharing a very public embrace, the girls look thrilled to see one another. It's likely been a trying week for Rihanna after former boyfriend Chris Brown spoke out about the assault incident involving the couple.

Perry, meanwhile, is on-and-off with emo rock/rapper **Travis McCoy**. Or shall we say hot and cold?
