SKYLIGHT

FIRST FLOOR – Ultra-Glamorous dining can be found on our first floor in the Skylight and Runway rooms. Vaulted ceilings and inspirational skylight sets the tone for a very special evening. The Skylight room is separated from the Runway room by a small hallway with no door. If combined, your event will gain an impressive entrance and overall set up that will easily showcase a reception and/or seated service. There is a coat check and bathrooms located within the Runway room providing a self-contained environment for your guests. Entire First Floor Buyouts to make the Skylight Room 100% private when combined with the Runway room are considered on a case by case basis.

RUNWAY

SECOND FLOOR – Located on the second floor of Philippe are two private dining rooms, Warrior 1 and Warrior 2. Each of these separate private dining rooms have sliding doors, carpeting, individual televisions and are located on opposite sides of the floor which ensures privacy if two events are going on at once. The second floor also hosts a beautiful bar, two bathrooms and is available for buyouts which includes both private dining rooms. Please consider that your guests must be able to navigate a flight of 15 stairs to get to our second floor.

WINE CELLAR 1

CELLARS – For those seeking something very unique, exclusive and secluded, Philippe offers two intimate private dining rooms in our wine cellars located a flight downstairs from the main dining room. Wine Cellar 1 and Wine Cellar 2 are similar in their speakeasy décor with exposed brick and wine bottles lining the walls. Built in leather banquettes allow for comfy seating complimented by regular chairs and both rooms are fully equipped with Wi-Fi and entertainment systems perfect for viewing parties. All guests must be able to navigate a flight of back kitchen stairs and walk through a lively prep kitchen. This is not a traditional entrance and/or location of private dining rooms and can only be fully understood with an onsite tour.
